## Detailed Results Report

Feature: To verify Weather API automation with Rest Assured				
Passed: 1		Failed: 0	Undefined: 0	Duration: 7.35s
Scenario: GET the Number of Days where the forecast predicts temperature above 20 Degrees				
Passed: 7		Failed: 0	Undefined: 0	Duration: 7.35s
	Given I want to forecast the Weather for "Sydney" for test case "Demo test 1"			0.15s
	When I set header content type as "application/json"			0.00s
	And I hit the API with requestbody "" and request method is "GET"			3.44s
	Then I try to verify the status code is "200"			0.00s
	And I try to verify the response schema as "TemplateSchemas/Weather200.json"			0.81s
	And I find out the number of days where the temperature is predicted to be above "20" degrees			2.35s
	And I find out the number of "Sunny" Days from the Forecast			0.59s
